The Story of Christopher Columbus
One day a boy named Christopher Columbus was born in a city called Genoa. When he was in little boy he played at the docks and listened to the stories the sailors had to tell. When he was a man he decided to make a new way to India. You see the people from Europe were going to India to trade for gems and drugs and to get rich. but the Turks stoped them from going. Columbus knew the world was round. He asked the King of

Italy but he said no. He had a good friend named Queen Isabella she gave him three ships and some men. They left from Spain and they sailed away. Soon the sailors saw land Columbus and his men thought they reached India. The next year Columbus with the ship Pinta. The Nina and the Santa Maria sank. When he landed in Spain he stayed there for a little while and after a while he made 4 more trips. The king of Spain put him in prison because the king thought was trying to get the money just for the trips they let him out because he was dying. Columbus died in a small rooming home.
